BEACH FOR DOGS

Pet Friendly places to visit with the best company:

REMEMBER!

Your pet must wear the identification tape on the collar or harness to allow us to get in touch with the owner.

Dogs must be kept on a lead inside de Campsite.

Prevent them from bothering adjoining plots.

At any time the documentation may be required during the stay.

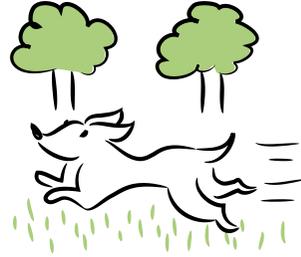

For reasons of public health, pets have restricted acces to people swimming pools, playgrounds and supermarkets.

PET CLUB

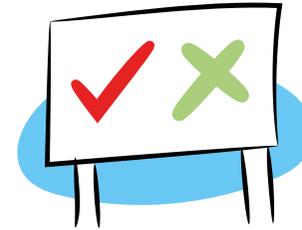

The owner is obliged to collect the depositions and make the pet do its needs in the Pipican area. In case it is inevitable, the urinations will be diluted with water to ensure the healthiness of the road and public spaces, avoiding the degradation of furniture.

In the Agility area you can enhance the development of your pet's skills, as well as improve their agility and health. All, of course, while still having fun.

Dog pool

At the entrance of the Dog Pool you will find some basic rules for its use. This way, we can control the occupation, the sanitary control of the facilities and we preserve the well-being of the clients.

Before entering the pool, the dog has to be clean. Also, we have a bathtub with hot water to bath them and highlight their best features.

Shopping

In our supermarkets you will find everything you need for your pet to have a great holiday, from gourmet food to shampoos.

POOL FOR SMALL DOGS
(- 6kg) Capacity: 6

POOL FOR BIG DOGS
(+ 6kg) Capacity: 6

The Dog Pool has two water zones, one for small dogs (less than 6 kg), and one for large dogs (from 6 kg). Why do we separate them? We do it keeping the safety of the pets in mind. Each water zone has different levels of depth. In this way, everyone can enjoy a bath and play with other dogs of their size, not having to worry.
